

**OSINT Challenges Write Up**

1

---

**OSINTOPIA**

The following slides present the answers to N0PSctf 2025 challenges

---

The logo for OSINTOPIA is displayed in a stylized, blocky font. The letters are primarily blue with a yellow outline and a purple shadow. The 'O's and 'I's are white with blue outlines. The logo is centered at the bottom of the slide.

# 1- Bibzy Clickbear is missing

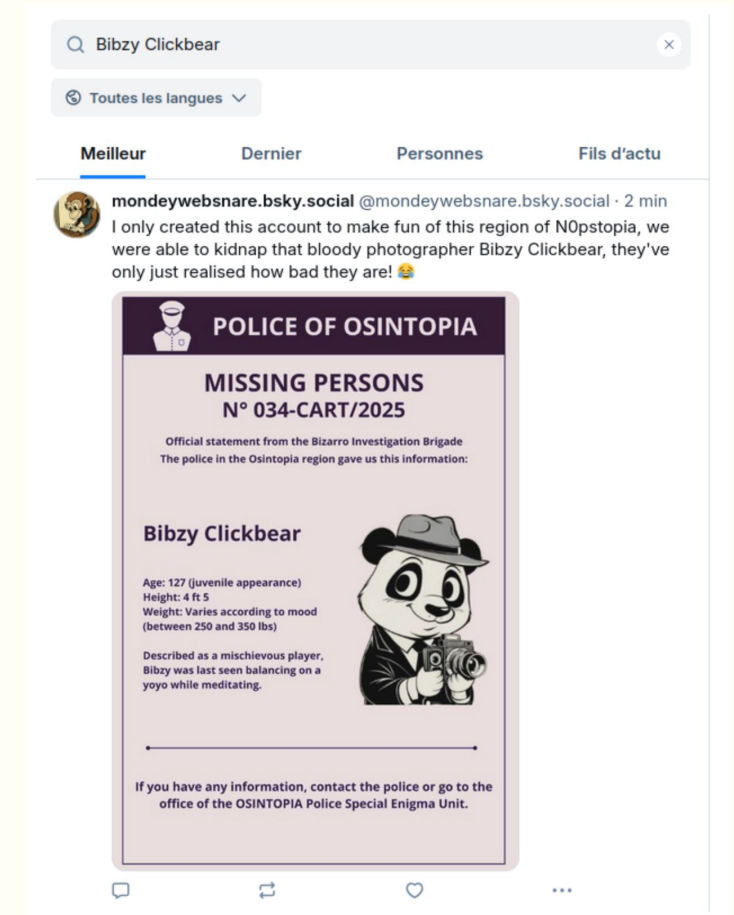

Q1 : Find out where the kidnappers are talking to each other.

The challengers are aware of the disparition of Bibzy Clickbear. The police of Osintopia is actively looking for him, and we're helping them. We start with the Missing Person Poster.

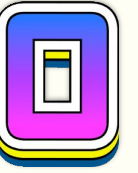

All we have is a name, Bibzy Clickbear.

The only results we may find are on Bluesky.

We now have a new clue thanks to this post: the account of someone who seems to be part of the gang who kidnapped him, Monday Websnare.

# 1- Bibzy Klikbear is missing

From here, we are able to find a github repository thanks to the nickname by using a tool like Whatsmyname.app

A small trick, adding .patch at the end of the url in a commit, allows us find Mondey Websnare's mail adress.

# 1- Bibzy Klikbear is missing

Let's try to find some more information thanks to Epieos.

We can see that Monday has a Gravatar account.

Thanks to the md5 hash of his mail (use the tool you want to calculate the hash), we can easily find his profil :

<https://gravatar.com/> + the hash:  
6d8b34ca7de38dbe90d9b6cbf2020c55

—> <https://gravatar.com/6d8b34ca7de38dbe90d9b6cbf2020c55>

This tool allows you to check if an email address is used on several social networks or websites.

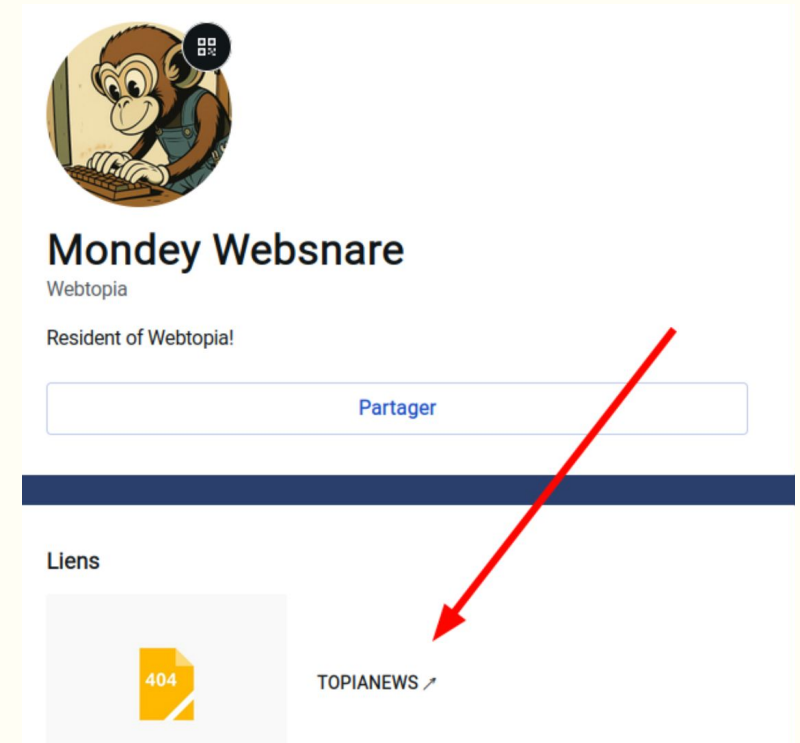

Query	mondeywebsnare@gmail.com

Websites	<a href="https://gravatar.com/">gravatar.com</a>

# 1- Bibzy Klikbear is missing

We now are on Websnare's gravatar profile.

The results give us a crucial new information, a link to a website that seems to be our first flag, a link to « toplanews ».

**First Flag :** <https://topianews.com>

## 2 -What three names

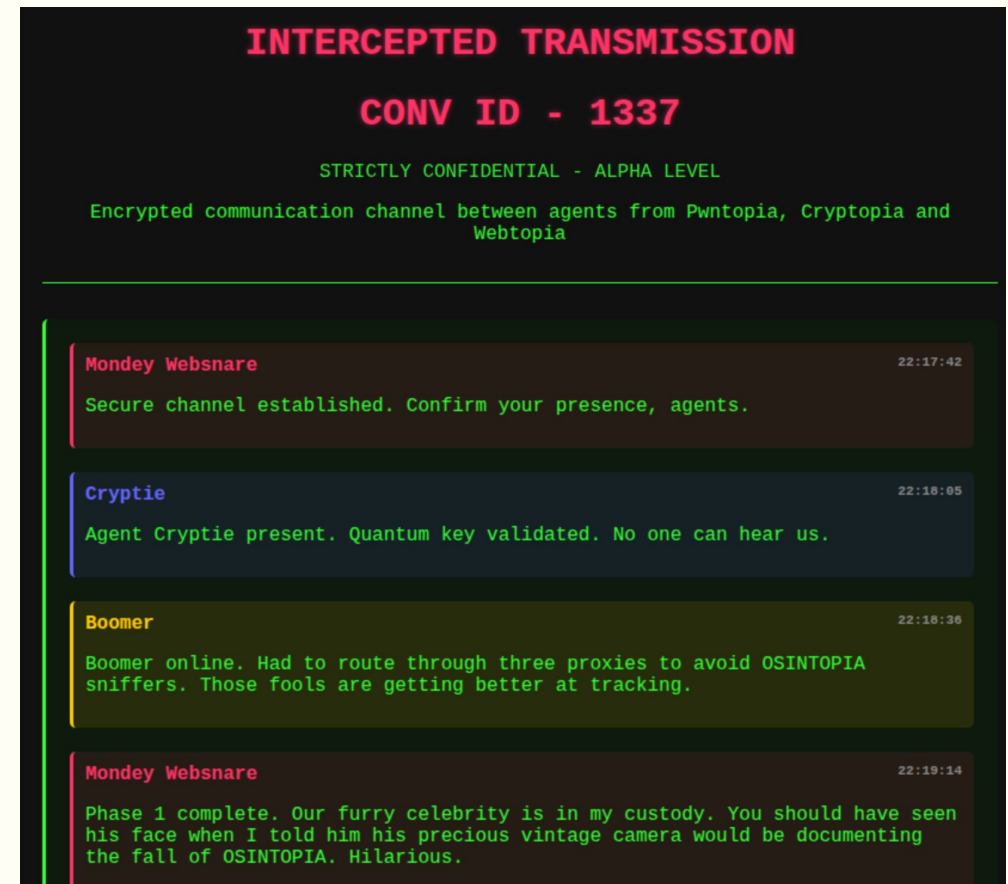

Q2 : What are the names of the 3 spies? (in alphabetical order of the kingdoms to which they belong)

We now have to find more informations about who is involved in Bibzy's disparition.

At the step, you can check the website but you won't find what you're looking for.

You will need an archiving tool  
Nothing on the wayback machine, but don't forget that archive.is exists!  
We are able to find an old conversation between the protagonists.

It gives us three nicknames: Mondey, Cryptie, Boomer

## 2 -What three names

Back on toplanews and playing with the website's url, we can easily find three profile pages: money.html, crypto.html, boomer.html.

It allows us to find the second flag in the required order:  
keyflipper\_hackpaw\_websnare

**Second flag : keyflipper\_hackpaw\_websnare**

The screenshot displays three user profiles stacked vertically. Each profile has a circular avatar, a name, a title, and a row of statistics. The first profile, 'Mondey Websnare SECURITY EXPERT', features a monkey avatar and includes 'Follow' and 'Encrypted Message' buttons. The second profile, 'Boomer Hackpaw OLD SCHOOL', has a raccoon avatar. The third profile, 'Cryptie Keyflipper CRYPTANALYST', has a beaver avatar.

Profile Name	Avatar	Title	Articles	Followers	Other Info
Mondey Websnare SECURITY EXPERT	Monkey	Chief Security Architect   WebGuard Solutions	56	37K	133 Vulnerabilities Found
Boomer Hackpaw OLD SCHOOL	Raccoon	Chief Legacy Systems Analyst   Pwntopia Defense Network	42	31K	40+ Years Experience
Cryptie Keyflipper CRYPTANALYST	Beaver	Senior Cryptographic Researcher   Cryptopia Encryption Institute	67	43K	512-bit Key Authority

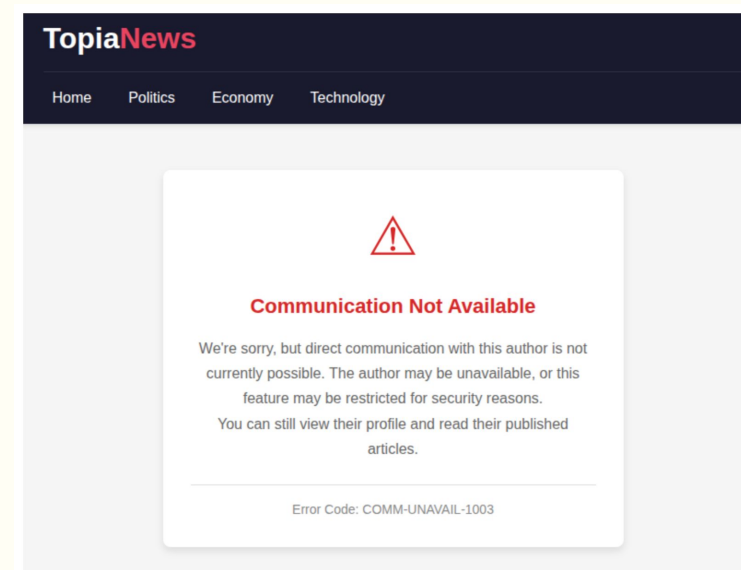

# 3 - Where's the bear ?

Q3 : According to your information, where is the hostage being held?

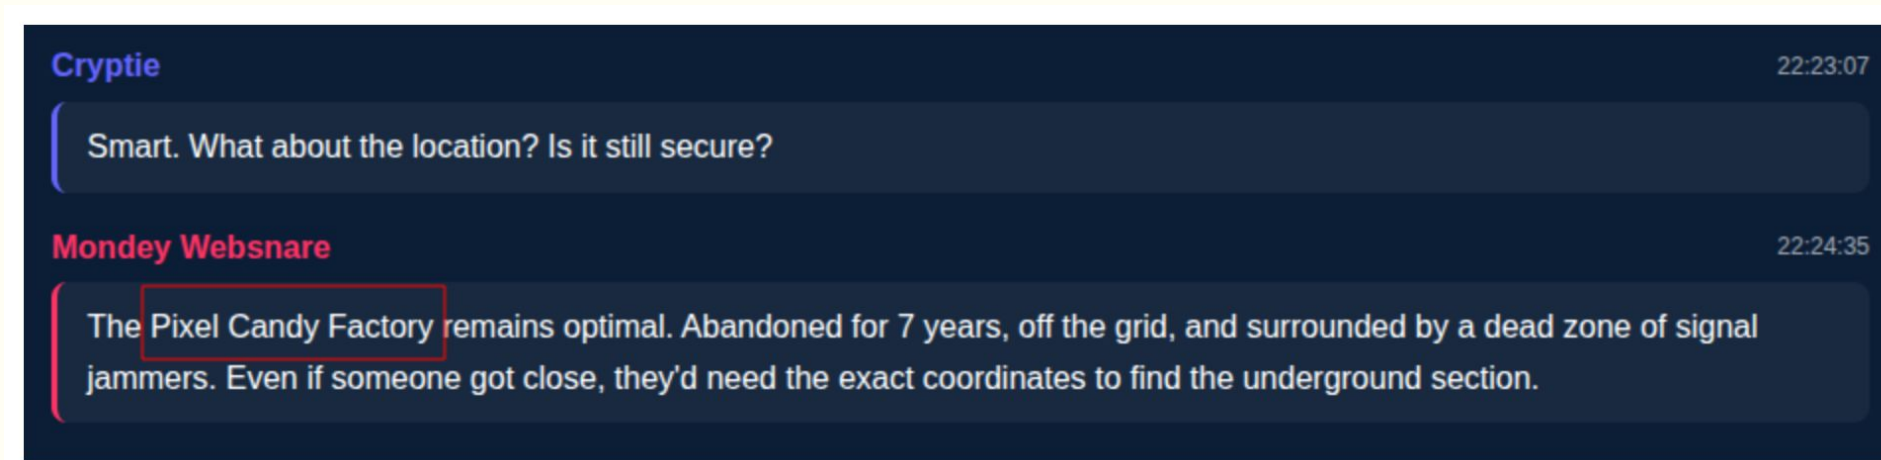

Let's continue our quest and find where could be Bibzy.

While navigating on topianews we can identify the format of the conversation's urls, for example while trying to send a message to Monday:

### 3 - Where's the bear ?

In the archives, we had a conversation number : 1337.  
By manipulating the url we come across the whole conversation, let's dig in:

There, we can read that our bear is being held in the Pixel Candy Factory.

**Third Flag : Pixel\_Candy\_Factory.**

## 4 - Whoooo's whoooo

Q4 : What is the real identity of the leader?

We now have to find the leader.

Our three kidnappers are security experts. But maybe sometimes, they make mistakes?

 **SECURE FORM: OPERATION BIBZY - PHASE 2 RENDEZVOUS**

<https://framaforms.org/next-meeting-1747045455>

While reading the rest of the chat, we notice a new url. They seem to be trying organizing their next meeting, and they're using an external tool to arrange their calendars...

Let's have an eye on that framaform. At first sight, no information... Let's hope for a misconfiguration?

## 4 - Whoooo's whoooo

First of all... what is that « public results » button? It must be a mistake :o

That seem interesting, but what is more interesting is the link to contact the author of the form.

Les résultats de ce formulaire sont publics. Si vous renseignez des informations ci-dessous, celles-ci seront visibles par n'importe qui.

L'auteur-e de ce formulaire a fait le choix de rendre publics les résultats de ce formulaire. En faisant ce choix, il ou elle s'est engagé-e à respecter la confidentialité des données personnelles des participant-e-s et a pris l'entière responsabilité de la divulgation de ses informations.

Si ce formulaire contient des données personnelles que vous jugez sensibles (noms, adresses postales/emails, n° téléphone, etc.), vous pouvez contacter l'auteur 2248806 via son formulaire de contact (NB: pour éviter le spam, il faut être connecté pour lui écrire)..

## 4 - Whoooo's whoooo

It gives us a new nickname: Digitowl.

By the same process than earlier, we can access his profile on toplanews.

The last clue we need is that .onion address.

### Digitowl

## 4 - Whoooo's whoooo

A quick look on this new site gives us the answer of the last question, the identify of the leader.

Fourth flag : elias\_nightshade

Well done mate, and thank you for your help.  
The Osintopia's police has now everything they need to bring back Bibzy Clickbear in a safe place and stop the 3vil L0rds !

The screenshot displays a website with three profile cards. The first card is for 'MONDEY WEBSNARE', a Field Operations Director at Webtopia Intelligence Service, with ID WIS-1337-MW and clearance ULTRA. The second card is for 'CRYPTIE KEYFLIPPER', a Cryptographic Operations Specialist at Cryptopia Encryption Institute, with ID CEI-K971-CK and clearance ULTRA-2. The third card is for 'DIGITOWL', an Operations Overseer, with ID DIG-001-OW and clearance ULTRA. A red arrow points to the Digitowl profile.

Name	Position	ID Number	Clearance	Special Skills	Known Aliases
Mondey Websnare	Field Operations Director	WIS-1337-MW	ULTRA	Infiltration, Digital Forgery, Hostage Handling	Mark Webb, Max Winter, The Spider
Cryptie Keyflipper	Cryptographic Operations Specialist	CEI-K971-CK	ULTRA-2	Cryptanalysis, System Penetration, Quantum Computing	Claire Knight, The Cipher, Professor Quantum
Digitowl	Operations Overseer	DIG-001-OW	ULTRA
